Former U.S. Senator, Governor of
Ohio and Mayor of Cleveland

Sen. Sandra Williams
Ohio Senate

The Ohio Collaborative strongly believes that the safety and security of both law enforcement and community members are enhanced when their relationship is strong. The work of the Ohio Collaborative is focused on enhancing the relationship between law enforcement and the communities they serve. On behalf of the members of the Ohio Collaborative, we want to thank Governor Kasich for giving us the opportunity to engage in this important statewide effort.

This report demonstrates that the overwhelming majority of law enforcement agencies are committed to implementing the standards; as a result, our communities are better served.

We are pleased to report more than 500 agencies – employing about 82 percent of Ohio's law enforcement officers – are implementing Ohio's first ever standards and public expectations.

Eighty-two percent of Ohio's population, including all 88 Ohio counties, is served by an agency engaged in the certification process.

We continue to believe that the work of the Ohio Collaborative has and will continue to serve as an avenue to building and enhancing the relationship between communities and law enforcement in Ohio.

We also could not do this work without the members of the advisory board. Their time, hard work, commitment, vision and passion is greatly appreciated. They should be very proud of all they have accomplished as well. Finally, to all of our partners and community members who have played a role in the work of the Ohio Collaborative, thank you.

Respectfully submitted,

	
Senator Nina Turner	Director John Born

Honorable Nina Turner, Co-Chair

Director John Born, Co-Chair

On behalf of the members of the Buckeye State Sheriffs' Association (BSSA) I am again proud to join with the Ohio Association of Chiefs of Police (OACP) and the Office of Criminal Justice Services (OCJS) to participate in the Ohio Collaborative certification process.

The contributions of the BSSA as participants, receiving certification, as assessors and as peer support providers in the certification process, has enriched the overall Collaborative effort and played a key role in its accomplishments. We welcome the opportunity to assist our members as they play a vital role in the development and implementation of the Collaborative standards.

We look forward to continuing our work in partnership with the OACPO and OCJS in the future.

Sincerely,

Robert A. Cornwell

Executive Director

OHIO ASSOCIATION OF CHIEFS OF POLICE, INC.

March 15, 2018

The Ohio Association of Chiefs of Police (OACP) is pleased to continue to partner with the Ohio Department of Public Safety (DPS) and the Ohio Office of Criminal Justice Service (OCJS) on the Ohio Collaborative statewide minimum standards.

Because we as an organization believe minimum standards are helping to further improve the professionalism and consistency of Ohio law enforcement agencies, the OACP continues to assist agencies in the process. The OACP offers peer support and reviews agencies to ensure they are achieving final certification through the assessment process.

During the second year of the Ohio Collaborative, OACP reached out to all agencies that submitted applications in year one, but had not yet completed the certification process. These agencies were encouraged to engage and offered assistance when needed.

In addition, those agencies that were certified in year one and were due to re-certify for year two were also contacted. Combined, and through these efforts, 284 agencies were contacted. Since the Ohio Collaborative's inception, over 700 peer and assessor assignments have been completed by the OACP.

We want to thank Chief Michael Navarre, Oregon PD, who continues to serve as the OACP representative on the Collaborative and is a strong advocate for Ohio law enforcement and minimum standards.

The OACP executive leadership strongly advocates minimum law enforcement standards and extends the continued support of the Association to the Ohio Collaborative certification process.

Sincerely,

Chief Brandon Standley
OACP President, 2017-2018
Bellefontaine PD

Donna Harrass
OACP Executive Director

OVERVIEW

Governor Kasich signed executive order 2015-04k on April 29, 2015. That executive order created the Ohio Collaborative Community Police Advisory Board (Collaborative). The Collaborative is a multidiscipline group consisting of a diverse group of Ohioans including, law enforcement, community members, elected officials, academia and the faith-based community. The Collaborative was created after the Governor's Task Force on Community Police Relations completed its work and produced a report with recommendations on how to improve the important relationship between law enforcement and the communities they serve.

The executive order charged the Collaborative with creating uniformed minimum standards for all law enforcement agencies to meet. The Collaborative was required, consistent with the executive order, to adopt standards on Use of Force, including Deadly Force, and Hiring and Recruitment within 90 days of the formation and appointment of the Collaborative. On August 28, 2015, the Collaborative adopted standards on use of force, including deadly force, and hiring and recruitment.

The executive order also required the Ohio Office of Criminal Justice Services to publish annually a report listing which state and local law enforcement agencies have adopted and fully implemented the first two standards. The order also required OCJS to publish this year, and each year after, each law enforcement agency's compliance or noncompliance with any new or modified statewide minimum standards.

At the time of this report, the Collaborative has adopted six (6) standards. This year's report focuses on the adoption of the first five standards which are listed below. While the additional standard is not addressed in this report, it will be the subject of future reports. The first two standards are collectively referred to as Group 1 standards.

GROUP 1

Policy statement for the State of Ohio standard for Use of Force

Employees may only use the force which is reasonably necessary to effect lawful objectives including: effecting a lawful arrest or overcoming resistance to a lawful arrest, preventing the escape of an offender, or protecting or defending others or themselves from physical harm.

Policy statement for the State of Ohio standard for Use of Deadly Force

The preservation of human life is of the highest value in the State of Ohio. Therefore, employees must have an objectively reasonable belief deadly force is necessary to protect life before the use of deadly force. Deadly force may be used only under the following circumstances:

1. To defend themselves from serious physical injury or death; or
2. To defend another person from serious physical injury or death; or
3. In accordance with U.S. and Ohio Supreme Court decisions, specifically, *Tennessee v. Garner* and *Graham v. Connor*.

Policy statement for the State of Ohio standard for Agency Employee Recruitment and Hiring

The goal of every Ohio law enforcement agency is to recruit and hire qualified individuals while providing equal employment opportunity. Ohio law enforcement agencies should consist of a diverse workforce. Communities with diverse populations should strive to have a diverse work force that reflects the citizens served.

Non-discrimination and equal employment opportunity is the policy. Law enforcement agencies shall provide equal terms and conditions of employment regardless of race, color, religion, sex, sexual orientation, gender identity, age, national origin, veteran status, military status, or disability. This applies to all terms or conditions associated with the employment process, including hiring, promotions, terminations, discipline, performance evaluations, and interviews.

Agencies should utilize due diligence in ensuring that their prospective employees have the proper temperament, knowledge and attitude to handle this very difficult job. Agencies should have appropriate mechanisms in place in order to achieve this mission. Further, agencies should ensure their employment requirements are related to the skills that are necessary to be a successful employee.

The final three standards that are the subject of this report are referred to as Group 2 standards.

523 OF **877**

LAW ENFORCEMENT AGENCIES IN
THE CERTIFICATION PROCESS

GROUP 2

Policy statement for the State of Ohio standard for Community Engagement

Purpose:

It is the shared responsibility of law enforcement agencies and the communities they serve to work together to build relationships based upon trust and mutual respect. A strong relationship between law enforcement agencies and the community will improve public safety and allow communities to thrive and prosper.

Standard:

Agencies must adopt a community engagement strategy with a primary focus on improving Police – Community relations.

Commentary:

Agencies shall utilize proven strategies or develop their own strategies that are focused on community engagement. Strategies may address any or all of the following or other related areas: youth programs, educating the community on police policy and procedures, understanding the communities agencies serve, sharing, receiving and providing information to the public, jointly identifying areas of concern, and communicating, when appropriate, significant changes in agency operations.

The intent of this standard is to establish agency accountability for the community involvement function in writing. The function should be developed and operated to effectively meet the needs of the agency, with consideration of the department size and budget, as well as the community it serves.

Policy statement for the State of Ohio standard for Body Worn Cameras

Purpose:

Law enforcement agencies and the community will benefit from clear guidelines involving the use of body-worn cameras and related privacy issues.

Standard:

Law enforcement agencies that use body worn cameras must establish a written policy for their use. The policy shall address the following areas:

- the purpose and organizational philosophy regarding use
- requirements and restrictions for activation and deactivation of the device
- criminal and administrative use of the camera captured data
- data storage, retention, and disclosure requirements reflective of public records law and privacy concerns
- accountability and training requirements for users and supervisors; and requirements for a documented review of camera captured data

Commentary:

Agencies who utilize body worn cameras must develop strong and consistent policies that provide guidance to their personnel as to the appropriate use of body worn cameras. Policies need to address, at a minimum, activation and deactivation, auditing, storage, retention, public records and the release of video related to victims, especially child victims, injured victims, victims of sexual assault and other privacy concerns. It is recognized that audio and video data is valuable recorded evidence that may provide a means of accountability for both officers and the public. It is also recognized that audio and video data may not be an accurate reflection of all that is involved with an incident. Audio and video data cannot reflect the human and cognitive conditions associated with officer and public contact. Additionally, audio and video shall not supersede the principles established by *Graham vs. Connor*.

Policy statement for the State of Ohio standard for Law Enforcement Telecommunicator**Purpose:**

Law Enforcement call taking and dispatching are critical elements to ensuring a proper and safe response to reported incidents affecting public safety. Ensuring proper training and performance by telecommunicators performing these functions is essential.

Standard:

Law Enforcement agencies must ensure a training program and policy directives exist to allow for telecommunicators to be proficient in:

- Obtaining complete and accurate information from callers requesting law enforcement assistance
- Accurately classifying and prioritizing requests for assistance
- Obtaining and accurately relaying information which may affect responder and/or citizen safety

Commentary:

This standard and the training applies only to those Law Enforcement Agencies that operate a tele-communications center or performs that function.

Training shall meet and support minimum standards as established by legislation for 911 call centers and public-safety answering points (PSAPs).

Acceptable training may include:

- class room or equivalent
- utilization of nationally recognized dispatcher training
- training developed by individual agencies to meet the specific needs of their communities

Unlike Group 1 standards, which require the adoption of each standard in order to be certified, Group 2 certification is based upon the adoption of applicable standards. For instance, an agency must adopt the community engagement standard, but may not utilize body-worn cameras or employ telecommunicators. However, that agency would be certified in Group 2 since they adopted the applicable standard for their agency. If at some later time they were to begin to utilize body-worn cameras or employ telecommunicators, they would need to meet those standards in order to be certified in Group 2.

COUNTY PROFILES

This report is divided into county profiles. Agencies are identified as one of the following statuses: In Process, Certified, Application Only or Not Certified in both Group 1 and Group 2 standards. Agencies that are in process, certified or have filed an application appear in the county profiles that are listed alphabetically in the body of the report. Noncertified agencies are listed alphabetically by county in the back of this report. The county profiles identify the number of agencies in the county, number of agencies involved in the certification process, number of overall officers, percentage of officers who work for agencies engaged in the certification process, county population and the percentage of the population that is served by an agency in the certification process.

We made significant progress this year. As of the publishing of this report, 415 agencies have obtained final certification on the first two standards. Last year, 270 agencies had obtained final certification on the first two standards. Additionally, 318 agencies are certified in both Group 1 and Group 2 standards. Thus, more agencies are certified in Group 1 and Group 2 than were certified in Group 1 last year.

Just like the initial report, this report goes to great lengths to provide statistical information on the true impact of the adoption of the collaborative standards. Thus, a great deal of the work is focused on the officers who are part of the certification process and the population that is served by these officers. The success of these standards is dependent upon the number of officers who are trained on the standards and the number of people who are served by these officers.

CERTIFICATION PROCESS

In order to assure agencies were adopting and implementing the standards created by the Collaborative, the Ohio Office of Criminal Justice Services created a law enforcement certification process. The certification process has one distinct goal, to build a rigorous review process with legitimacy in the eyes of both the public and law enforcement.

The certification process was developed by criminal justice professionals with extensive expertise and experience in accreditation. The certification process has three components. Each is reflected in the agency's designation as identified in this report. The process begins when an agency submits an application and documentation supporting their agency efforts to adopt and implement the collaborative standards. When an agency has completed this initial step, they are deemed *in process*.

27,994 OF **34,234**
OHIO LAW ENFORCEMENT OFFICERS IN
THE CERTIFICATION PROCESS

Once an agency completes that initial step, their agency application and supporting documentation is then passed on to a reviewer to determine if the agency's documentation supports their assertion that they have implemented the collaborative standards. This part of the process may result in multiple contacts between the reviewer and the certification seeking agency as the reviewer seeks additional information or clarification. Once the reviewer is satisfied the documentation is sufficient to demonstrate the agency has adopted and implemented the standards, that agency is deemed to be *provisionally certified*.

The final step in the process is an onsite assessment of an agency by a criminal justice professional, either a former or current law enforcement officer or accreditation expert, and a final review by the Office of Criminal Justice Services (OCJS) Executive Director. Prior to conducting the onsite review, the assessor will review all documentation submitted by the agency and the entire certification file. Once this review is completed, the assessor will go to the agency and review additional documentation and interview agency staff. Once the assessor completes their onsite review, they will write a report documenting their visit and findings. The report is then forwarded to the OCJS Executive Director for final review. Once the executive director is satisfied the agency has implemented the standards, the agency is deemed to be *final certified*.

This report and process could not have been completed without the strong support and partnership of both the Buckeye State Sheriffs Association (BSSA) and the Ohio Association of Chiefs of Police (OACP). Both organizations have encouraged their members to participate in the process, provided valuable input to the development of standards and assessors and peer support for the certification process. Each organization has also assisted with our comprehensive outreach effort to contact agencies about the certification process.

STRENGTHENING COMMUNITY POLICE RELATIONS 2018

OHIO'S FIRST EVER STANDARDS:

For several years, Ohio has been working to create a national model to strengthen the bond between communities and police. Ohio Governor John R. Kasich established the Ohio Collaborative Community-Police Advisory Board to guide and implement new strategies to improve community-police relations. That work included development of first-of-their-kind standards for state and local law enforcement departments regarding:

- The proper use of force including deadly force
- The recruiting, hiring and screening of potential law enforcement officer candidates
- The implementation of community engagement
- The appropriate use of body worn cameras
- The essential training for law enforcement telecommunicators

In 2017 our department did not meet the standard for “Hiring and Recruiting.” Due to this failure we were made to look at our process as a whole. We have markedly increased our deficiencies from what was embarrassing especially in the area of our “Job Fairs” to a standard that is professional.

I found the website very informative about the self-certification process. Everyone I have worked with or contacted has been very helpful. I highly recommend departments that have not started the process yet to do so, especially if you use Lexipol to publish and update your department's policy manual.

JOHN R. KASICH
GOVERNOR
STATE OF OHIO

Executive Order 2015-04K

Establishing the Ohio Collaborative Community-Police Advisory Board

WHEREAS, trust between the citizens of Ohio and the law enforcement officers who serve us is essential for building safe communities and creating and sustaining opportunities for all Ohioans; and

WHEREAS, through Executive Order 2014-06K, I created the Ohio Task Force on Community-Police Relations (“Task Force”) to explore how to strengthen the fractured relationships that exist between law enforcement and some communities and to examine strategies to strengthen trust between law enforcement and the communities they serve; and

WHEREAS, the Task Force held a series of public forums throughout the State to listen to community and law enforcement perspectives on community-law enforcement interaction; and

WHEREAS, in those public forums, the Task Force heard from hundreds of members of the general public and nationally renowned experts about the challenges that currently exist in rebuilding trust between law enforcement and the public in some communities; and

WHEREAS, the Task Force has produced a report that includes recommendations on how to improve relationships between law enforcement and the communities they serve, as well as research, supporting documentation and, most importantly, the perspectives of the citizens of Ohio, Task Force members, experts, and others who provided testimony and information to the Task Force; and

WHEREAS, the recommendations, testimony, supporting documentation, and best practices outlined in the report serve as a blueprint for further action; and

WHEREAS, continuing to bring together citizens, communities and law enforcement departments to strengthen their relationships in a collaborative way will allow the work and the recommendations of the Task Force to be carried forward;

NOW THEREFORE, I, John R. Kasich, Governor of the State of Ohio, by virtue of the authority vested in me by the Constitution and the laws of the State of Ohio do hereby order and direct that:

1. The **Ohio Collaborative Community-Police Advisory Board** (“the Collaborative”) is hereby established. The Collaborative will consist of twelve (12) persons appointed by me, plus additional *ex officio* members as I may designate, and will include both law enforcement officers and public members. I will appoint a Chairperson from among the twelve members. Members of the Collaborative will serve three- (3-) year terms, though the initial terms will be staggered so that no more than four (4) members’ terms will end every year.
2. The purpose of the Collaborative is to advise and work with the Office of Criminal Justice Services (“OCJS”) in the Ohio Department of Public Safety on implementing the Task Force’s recommendations and creating, for the first time in Ohio’s history:
 - a. Statewide minimum standards for state and local law enforcement departments to follow in certain vitally important areas including, but not limited to, (i) the proper use of force, including deadly force, and (ii) the recruiting, hiring and screening of potential law enforcement officer candidates; and
 - b. Model departmental policies and best practices recommendations which state and local law enforcement departments and local communities will be encouraged to adopt and then adapt to their particular communities’ needs. The model policies and best practice recommendations will address several areas including, but not limited to: (i) methods for law enforcement to involve the local community in helping officers to address safety issues in the community; (ii) educating the local community on the challenges that law enforcement officers face on a daily basis and how officers are trained to deal with those challenges; (iii) opening effective lines of communication between law enforcement officers and local citizens, particularly as it pertains to encounters between officers and citizens; and (iv) strategies for how both law enforcement and the communities the officers serve can hold each other accountable for the other’s actions.
3. Once all of the members of the Collaborative have been appointed, OCJS and the Collaborative shall immediately begin jointly developing the two statewide minimum standards referred to in paragraph 2a. above. No later than ninety (90) days after the members of the Collaborative have been appointed, the Collaborative and OCJS shall finalize the two standards referred to in paragraph 2a. above and OCJS will disseminate those two standards to all state and local law enforcement departments in Ohio.
4. Additionally, the Collaborative and OCJS shall develop the model departmental policies and best practices referred to in paragraph 2b. above. The Collaborative and OCJS shall set a deadline by which the model departmental policies and best practices will be finalized and disseminated to all state and local law enforcement departments in Ohio. In setting that deadline, the Collaborative and OCJS shall take into consideration the date of the annual report set forth in paragraph 5 below and allow state and local law enforcement departments and the communities they serve sufficient time to review and consider the adoption of those model departmental policies and best practices prior to the issuance of the first annual report.

5. The Collaborative, with the assistance of OCJS, shall monitor and evaluate all state and local law enforcement departments' adoption and implementation of the two statewide minimum standards referred to in paragraph 2a. No later than March 31, 2017, and annually thereafter, OCJS shall publish a report listing which state and local law enforcement departments have and have not adopted and fully implemented those two statewide minimum standards. OCJS shall also note in its report which departments have also adopted one or more of the model departmental policies and best practices developed by the Collaborative and OCJS.
6. The Collaborative may also:
 - a. Recommend to OCJS additional statewide minimum standards for law enforcement departments in Ohio beyond the two standards specified in paragraph 2a. above.
 - b. Recommend to OCJS additional model departmental policies and best practices for law enforcement departments in Ohio beyond those specified in paragraph 2b. above.
 - c. Evaluate the effectiveness of any statewide minimum standards and/or model departmental policies and best practices developed by the Collaborative and OCJS and, if necessary, recommend modifications to the same.
 - d. Recommend to OCJS any other measure the Collaborative believes is necessary to implement the Task Force's recommendations.

Any such new or modified statewide minimum standards and/or model departmental policies and best practices which the Collaborative and OCJS develop shall be disseminated by OCJS to all state and local law enforcement departments in Ohio. All annual reports published by OCJS in 2018 and thereafter shall include each law enforcement department's compliance or noncompliance with any such new or modified statewide minimum standards.

7. The Collaborative and OCJS, in their discretion, may develop measures to encourage state and local law enforcement departments to adopt and implement any statewide minimum standards developed by the Collaborative and OCJS.
8. Any and all staff support and resources necessary for the Collaborative to fulfill its obligations as outlined in this Executive Order shall be provided by the State of Ohio through OCJS. The Chairperson and members of the Collaborative shall serve without compensation for their work on the Collaborative, but may be reimbursed for their reasonable and necessary expenses in the conduct of Collaborative business.

I signed this Executive Order on April 29, 2015, in Columbus, Ohio, and it will not expire unless rescinded.

John R. Kasich, Governor

ATTEST:

Jon Husted, Secretary of State
